About Us

Ecare Vision (ECV)

Ecarevision (SMC) Pvt. Ltd (ECV) is a multi-disciplined consulting firm. We solve complex business challenges brought about by changing technology.

ECV helps our clients overcome difficult business situations and realize their full potential, making the most of their opportunities. Our approach combines industry knowledge, functional business experience, and technological skills with repeatable processes.

ECV works closely with a client to define ECV's role and function in each project. By combining our clients' objectives with our consultants' expertise, we develop a joint approach and partnership to solve the business Challenges clients face.

ECV personalizes the IT experience for organizations with solutions custom tailored for the issues of today and future needs. ECV minimizes the impact IT related problems have on businesses, while maximizing the realized return on investment (ROI) allowing the business to leverage outsourced IT support personnel.

ECV has clients throughout the world, operating in over 30 countries, and across all industries. Our experience in multiple vertical markets ensures our clients access to "best in class" solutions, utilizing technology to overcome the specific challenges in their particular industry.

Today ECV services clients from diverse sectors of industry, including banking, legal, healthcare, energy and corporate business. It is a combination of these experiences from all industries that ECV can provide a "best practices" approach for information technology.

Professional Services

Our Professional Services Division is equipped to handle all of your consulting requirements. We work with you to ensure that your information technology is being effectively utilized, fulfilling its role within the organization, and realizing its return on investment.

Our consultants assist you with IT analysis and review, infrastructure and system design, turnkey deployment, future and lifecycle planning, and a host of additional services.

Managed IT Services

Our Managed IT Services Division focuses on helping you keep your business running day-to-day. Our upbeat focus works to identify problems before they cause a business impact. We test and evaluate updates, patches, and threats as they are released and identified in the global environment to maximize your company's uptime and the life of your IT components.

ECV provides monitoring and maintenance on as many or as few devices as per our clients desire. By providing a scaling solution, we enable our clients to find the package that best suits their individual needs.

At ECV, we make it easy to choose the right technical support solutions to fit your business needs.
